PRESS RELEASE

About the Apogee Element 88

Element 88 offers the very latest of Apogee's superior audio interface innovations at a price that's accessible to everyone. With Ensemble Thunderbolt grade mic preamps and AD/DA conversion, Symphony I/O Mk II headphone output technology, and Apogee's class-leading, low-latency Thunderbolt driver, Element 88 gives you the essentials for excellent audio performance that will make everything in your studio sound better and work faster.

About the Apogee Control

If you love what Element has to offer and you want to reach for hardware control on your desktop the Apogee Control hardware remote delivers. With a big Symphony I/O Mk II inspired encoder knob and 8 configurable buttons that give you access to dozens of user assignable functions the Apogee Control hardware remote will make setting up and controlling your Element 88 simple and intuitive. Apogee Control Hardware Remote connects directly to your Mac using a simple USB cable.

Product highlights:

Apogee Element 88

About the Company Sound Service European Music Distribution

Founded in 1983, the Berlin based Sound Service European Music Distribution has been growing steadily from a one-product-distributor (MFB Fricke; the world`s first digital drummachine) to one of the major independent german distribution companies for musical instruments recording studio equipment and PA, Lightning and DJ products. Today Sound Service is one of the leading distribution companies in Europe with exclusive distribution rights for a lot of the A-List MI-brands covering most of the countries in Europe.
