

PRESS RELEASE

Zoom unveils the MS-60B+ MultiStomp for Bass

Zoom is delighted to announce the MS-60B+ MultiStomp. The MS-60B+ is the fourth next generation effects pedal of Zoom's highly acclaimed MultiStomp series. The MS-60B+ gives bass players 75 effects that span from octaves, filters, modulations, synths, drives and more.

The MS-60B+ also faithfully reproduces 11 preamps and 11 classic amps and cabinets using Zoom's Multi-layer IR technology.

The MS-60B+ allows you to output split signals to output sound with Amps/IR's to a PA, while simultaneously outputting sound without Amps/IR's to an amplifier.

The USB-MIDI feature allows a seamless integration in any pedalboard setup and the 4 encoder knobs are perfect for tweaking your sound to the max. You can also create your own Custom Patches containing up to 6 different effects with the onboard controls or via Zoom's new Handy Guitar Lab App for iOS. And the new Color LCD screen changes the colour according to the effect type you have selected. The MS-60B+ will be shipping in July 2024.

AMPS PLAYED BY LEGENDS

Channel Jaco's sound with the Acoustic 370* amp model, or stand out like Flea with the warm punchy tone of an Ampeg SVT*. The MS-60B+ faithfully reproduces 11 classic amps and cabinets using Zoom's Multi-layer IR technology.

GET YOUR FREQ ON

Transform your sound with 75 effects that span from octaves, filters, modulations, synths, drives and more.

COME TOGETHER

Mix and match up to 6 effects, amp models, and preamps to build the perfect bass rig. Or, explore the history of bass with 85 presets based on famous songs from the 60's to today.

NEED TO SPLIT?

The MS-60B+ allows you to output split signals. This allows you to output sound with Amps/IR's to a PA, while simultaneously outputting sound without Amps/IR's to your amplifier.

NEXT GENERATION CIRCUITRY

The MS-60B+ is designed with new analog circuits that provide more fidelity for improved sound quality. The flat phase response provides sharp attacks and clean low end, giving the pedal more refined tonal characteristics.

CHANGE PATCHES WITH MIDI

With USB MIDI, you can connect the MS-60B+ to other MIDI gear to remotely trigger patch changes.

COLOR CODED LCD SCREEN

The LCD backlight changes color to make it easier to distinguish each category of effects while scrolling.

CONTROL KNOBS

Fine-tuning and adjusting amp models and effects can be done with the four encoder knobs.

CROSS KEY SWITCHES

The Cross Key switches allow you to easily switch between effects and patches with a tap of your foot.

TUNE UP

The onboard chromatic tuner uses the color backlight to give visual feedback to help you tune quickly and accurately. It supports all standard bass guitar tunings, including drop tunings.

HANDY GUITAR LAB

With a growing library of patches and effects, bass players can continue to expand their sound with the Handy Guitar Lab for MS-60B+ app for iOS.

**Coming Soon to the App Store.*

TECHNICAL SPECIFICATIONS

Maximum number of simultaneous effects	6 effects
User patch memories	100
Sampling frequency	44.1 kHz
A/D conversion	24-bit 128x oversampling
D/A conversion	24-bit 128x oversampling
Signal processing	32-bit
Frequency response	20 Hz – 20 kHz (+0.5 dB/-0.5 dB) (when 10kΩ load)
Display	160x128 dot-matrix LCD
Input	INPUT Standard mono phone jack Rated input level: -20 dBu Input impedance (line): 470 kΩ

PRESS RELEASE

Outputs	L/R	Standard mono phone jacks Maximum output level: +7.2 dBu (when output impedance 10 kΩ or higher)
Input S/N		122 dB
Noise floor (residual noise)	L/R	-100 dBu
Power		AC adapter: 9V DC 500mA center negative (ZOOM AD-16) 2 AA batteries (alkaline, lithium or rechargeable NiMH)
Estimated operation times	• These values are approximate. • Battery operation times were determined using in-house testing methods. They will vary greatly according to use conditions.	Alkaline batteries: about 7 hours NiMH batteries (1900 mAh): about 6.5 hours Lithium batteries: about 14 hours
using batteries		
USB		Port: USB 2.0 Type-C/Supported cable type: Type-C Handy Guitar Lab: USB1.1 Full Speed • Use a USB cable that supports data transfer. USB bus power is supported.
Dimensions		133 mm (D) × 79 mm (W) × 61 mm (H)
Weight		353 g (excluding batteries) 400 g (including batteries)
Note: 0 dBu = 0.775 V		

About the Zoom Corporation

WE'RE ZOOM. AND WE'RE FOR CREATORS.

Zoom designs and produces a wide array of recording devices, multi-effects processors, effects pedals, digital mixers, and samplers. Our innovative, cutting-edge technology is trusted world-wide by sound designers, musicians, podcasters, filmmakers, location sound professionals, electronic news gatherers, and pretty much anyone who creates amazing, important things.

Zoom's corporate culture is a fusion of engineers and artists; a combination of advanced technological skills and the sense and desire to employ them creatively and imaginatively. Our mission is to design, develop and manufacture high-end, and easy-to-use creative tools that allow anyone, from amateur to professional, to more freely express their creative ideas in today's digitally-driven world.

About the Company Sound Service European Music Distribution

Founded in 1983, the Berlin based Sound Service European Music Distribution has been growing steadily from a one-product-distributor (MFB Fricke; the world's first digital drummachine) to one of the major independent German distribution companies for musical instruments recording studio equipment and PA, Lightning and DJ products. Today Sound Service is one of the leading distribution companies in Europe with exclusive distribution rights for a lot of the A-List MI-brands covering most of the countries in Europe.
