

Icon unveils the P1-M, P1-X and the P1-Nano Compact DAW Controller

Icon Pro Audio is delighted to announce another addition to its new generation of DAW controllers

Presenting the new shining stars in the field of mid-sized and single fader MIDI DAW control surfaces – the new ICON P1-M DAW Controller and the new P1-Nano single fader DAW Controller!

Derived from our new flagship V1-M, the new P1-M and P1-Nano incorporates the same new technology and most of the features of the V1-M, but at a smaller footprint. Both new models feature a 16-panel, programmable digital touch screen, multiple simultaneous DAW control, highly advanced iMAP™ software for completely re-arrange (via 'drag and drop') how DAW functions appear, easy plug-in control, 8 noiseless rotary encoders and an intuitive, intelligent design. The P1-M comes with 8 touch-sensitive motorized faders with 12-bit resolution and can be expanded with the P1-X to a setup with up to 64 channels. The P1-Nano has a single touch-sensitive motorized fader with 12-bit resolution. All models can be upgraded with optional matching TFT displays showing channel name, control values, metering and program parameters for each channel. The P1-M, P1-X and P1-Nano will be shipping in December 2023.

Berlin, 14th of November 2023 – Experience ultimate control with the P1-M and P1-Nano DAW controllers, designed to revolutionize your productivity and accelerate project completion. These powerful devices put tactile control at your fingertips, streamlining your workflow for a faster and more efficient creative process. Discover the remarkable features that make the P1-M and the P1-Nano the perfect match for your audio adventures:

CUSTOMIZABLE TOUCHSCREEN

A large, customizable touchscreen grants you effortless control over your DAW, tailored to your specific workflow. The P1-M and P1 Nano have a customizable touchscreen display that can be used to control 5 color coded layers of commands in your DAW and match your specific workflow. Quickly access the controls you need at the touch of a button all without diverting your focus from the mix.

A total of 80 DAW functions can be assigned per DAW, (an incredible 240 functions in total!) to this attractive and color-coded touchscreen display.

INTEGRATION WITH MOST POPULAR DAWs

Compatible with leading DAWs like Bitwig, Cubase/Nuendo, Logic Pro X, Ableton Live, and Pro Tools, the P1-M and P1-Nano ensure seamless compatibility with your preferred software. Plus, work with up to 3 DAWs simultaneously, ensuring a smooth and uninterrupted creative experience.

CONTROL AND AUTOMATION

Use the 8 encoder knobs and the optional D4T (D4 for P1X, D5 for P1-Nano) display to control your session plugins. Illuminated automation command buttons and the motorized fader are perfect for riding vocals or automating sends.

MUSIC PRODUCTION

Empower your creativity. The P1-M is just the right size for your workspace giving you tactile control with faders, knobs and DAW functions right at your fingertips. And the P1 Nano fits snugly into even the smallest workspace giving you transport control and DAW functions right at your fingertips.

RECORDING AND MIXING

Whether you're setting up your project studio or working on a large format console, the P1-M is the perfect controller to complement your workflow. Its adaptability allows it to seamlessly serve as the heart of your production suite or integrate effortlessly as an 8 fader DAW controller on your expansive console setup.

No matter the size of your studio, the P1 Nano is the perfect controller. Use it as the center of your project studio or use it as the DAW controller that feels right at home on your large format console.

CONTENT CREATION

Elevate your podcast, broadcast or channel and streamline your editing workflow with customizable functions for engaging audiences with ease.

POST PRODUCTION AND SOUND DESIGN

With the P1-M and P1-Nano, the possibilities are limitless. Depending on your DAW, you have the freedom to add up to 64 channels to your setup (only P1-M). This proves invaluable when tackling intricate projects, brimming with dialogue tracks, or when crafting immersive soundscapes and otherworldly creations.

Use the eight encoder knobs to control your sound design and MIDI parameters along with your plugins and your DAW.

EXPAND YOUR WORKFLOW (P1-M only)

With 8 motorized faders and the ability to bank 8 channels at a time, the P1-M provides ample control, but it's expandable up to 64 channels (depending on your DAW) using optional P1-X expansion modules. No matter the complexity of your project, you'll have full command over your mix.

About Icon Pro Audio

Icon enjoyed a lucrative 20 year history of distributing media content (movies), professional audio, installation and studio products throughout Hong Kong and China. After establishing itself as a dominate distribution company in the region, founder Joe Wong decided to venture into manufacturing stage and studio products for the world market. Icon Global Corporation was born.

In addition to manufacturing hundreds of unique professional audio products, Icon's wholly owned and operated facilities in Hong Kong and Guangzhou, China serve as home to the overall operation and primary development activities. Thanks to a unique international development team, industry leading products ranging from microphones, processors, midi controllers, monitors and a myriad of accessories for the studio, stage and P.A. markets. Product ideas stimulated by musicians, engineers and enthusiasts are brought to reality through a unique R&D effort involving in-house engineers in the US and Asia.

About the Company Sound Service European Music Distribution

Founded in 1983, the Berlin based Sound Service European Music Distribution has been growing steadily from a one-product-distributor (MFB Fricke; the world's first digital drummachine) to one of the major independent german distribution companies for musical instruments recording studio equipment and PA, Lightning and DJ products. Today Sound Service is one of the leading distribution companies in Europe with exclusive distribution rights for a lot of the A-List MI-brands covering most of the countries in Europe.
