PRESS RELEASE

Zoom unveils the NEURIG™ AMP & EFFECTS NEURAL MODELER

Zoom introduces the **NEURIG™ Amp & Effects Neural Modeler**, a next-generation guitar effects pedal powered by Zoom's new innovative DNA neural modeling technology. Combining authentic amp and effects tones with advanced AI features, NEURIG puts powerful tone creation in the hands of every player.
Zooms newly developed the DNA (Dynamic Neural Archive) Technology is going beyond static sound capture, it learns how each amplifier circuit responds to every knob setting, recreating the organic, dynamic interaction of GAIN and EQ controls. NEURIG offers 30 DNA amp and effects models alongside 139 built-in effects.
Native NAM A2-lite support unlocks access to more than 700,000 free community captures and IRs from TONE3000. NEURIG also enables users to capture their own gear through Wi-Fi cloud processing.
The new 22 Multi-Layer IRs lets you now select multiple mics and mic positions to adapt the cabinet sound to your needs.
The companion SessionZ Pedal app expands creative possibilities with Bluetooth connectivity, intuitive rig editing, and groundbreaking new AI features. Rig AI builds custom Rigs (preset sounds) based on your description (text prompt). AI Stem Separation creates backing track by isolating vocals, guitar, bass, drums from an audio file on your phone. Session Z PLAY lets you jam or stream music from YouTube or your own saved tracks via Bluetooth on your NEURIG and creates the matching guitar tone by press of a button.
Designed for seamless performance, NEURIG supports up to 14 amps and effects in 4 different combinations per rig, stores up to 200 rigs, and switches between them without audio dropouts, preserving natural delay and reverb trails. Its dual touchscreens, 32-bit float processing, USB audio interface, stereo outputs, looper, and built-in tuner provide a versatile solution for stage, studio, and practice. Compact, lightweight, and powered by a rechargeable battery offering up to 4.5 hours of playtime, NEURIG delivers advanced neural modeling and flexible tone creation wherever inspiration strikes. NEURIG will be shipping in December 2026.

Overview

Facts
- Zoom unveils the NEURIG™ Amp & Effects Neural Modeler
- New DNA Neural Modeling
- 30 new DNA amp & effects
- Dual touchscreen interface
- New Multi-Layer cabinet IRs with mics and mics position select option
- Native NAM A2 support
- Load and access TONE3000's NAM captures and IRs
- Create your own NAM A2 captures of your gear through Wi-Fi cloud processing
- Session Z Pedal App for editing and AI cloud services
- Rig AI builds Rigs (sounds) from text prompt
- AI Stem allows isolation of vocals, drums bass, guitar out of any track for jamming along
- Play - allows to control transport function of videos or audio files and build Rigs from sound of video/audio files
- Bluetooth audio streaming for playing along with your favorite tracks and videos
- Built-in chromatic tuner
- Built-in 45 second looper
- Built-in rechargeable battery
- Built-in USB audio interface

PRESS RELEASE

Berlin, 26th of October 2026 – Introducing the ZOOM NEURIG™ Amp & Effects Neural Modeler. The future of tone is in your hands. With Zoom's newest DNA neural modeling, NEURIG™ gives you the power to take the cutting edge in your own direction.

THE DNA ENGINE AT WORK

Zoom's new-gen DNA (Dynamic Neural Archive) Engine goes beyond ordinary modeling. NEURIG meticulously models how classic amps and effects respond across every knob and parameter, , recreating the organic, dynamic interaction of GAIN and EQ controls. With 30 DNA amps and effects, NEURIG gives you the authentic sound and feel of the real thing.

BUILT FOR NAM

NEURIG's native NAM A2 support opens the door to a never ending library of tones. Load captures of amps, pedals, cabinets, and complete signal chains from a massive open-source community.

UNLOCK LEGENDARY TONES WITH TONE3000

Connect NEURIG to Zoom's SessionZ Pedal app for free access to more than 700,000 TONE3000 NAM captures and IRs. Find everything from boutique pedals to vintage amps, then load your favorites directly onto your NEURIG.

MORE DETAILED CABINETS

NEURIG's 22 Multi-Layer IRs each combine three IRs recorded at different volumes to recreate the sound and feel of classic cabinets. Select your mic and mic placement to find your sweet spot.

SESSION Z PEDAL APP CLOUD SERVICES

The SessionZ Pedal app was developed to give you more ways to create and play with NEURIG, with new features planned for future updates. Connect over Bluetooth to explore new tones, edit and manage your rigs, and jam along with your favorite tracks.

RIG AI
Describe the tone you want and the SessionZ Pedal App builds the rig for you. Ask for the sound of a specific song, or simply describe the mood, feel, or ambience you're after.

SESSION Z PLAY
Jam or stream music from YouTube or your own saved tracks via BlueTooth on your NEURIG and create the matching guitar tone by press of a button.

HANDS-FREE CONTROL
When playing back from Youtube or files on your phone you can control play, pause, skip, fastforward, and rewind, hands-free, right from the pedal.

ISOLATE ANY INSTRUMENT
AI stem separation works on audio files from your phone. Isolate the vocals, guitar, bass, or drums to focus on a specific part, or jam along.

FULL PATCH CONTROL
Touch-based editing from the app puts every core function right at your fingertips.

CAPTURE YOUR GEAR

NEURIG is the world's first pedal with NAM A2 capture. Connect an amp, pedal, or full signal chain and hit capture. NEURIG sends it over Wi-Fi to Tone3000 for AI analysis, then returns a NAM capture ready to use in any rig.

CUSTOM RIGS

Each 'RIG' lets you use one complete setup with all the tones your song needs. Each RIG can contain up to 14 amps and effects*, with four presets to seamlessly switch between them as you play.
NEURIG includes 75 ready-to-play RIGs, with space for up to 200 of your own.

PRISTINE PROCESSING

32-bit float processing means you have enough headroom to stack effects without clipping or losing detail.

ZERO AUDIO DROPOUT

NEURIG switches between effects and rigs without any audio dropout. Delay and reverb trails ring out naturally, even mid-change.

SIGNAL SPLITTING

NEURIG lets you run effects in parallel to build layered tones or split your signal to shape separate sounds for your stage amp and the PA.

PRESS RELEASE

LIGHTWEIGHT & EASY TO USE
NEURIG puts serious power behind simple controls and dual touch screens that make everything easy to reach. It's under 2 pounds, compact, and ready to drop into your existing pedalboard or take center stage on its own.

WHOLE LOTTA CHARGE
NEURIG runs on a built-in rechargeable battery with up to 4.5 hours of play on a single charge. Take the stage or set up to practice anywhere, no AC required. NEURIG can also be powered via USB.

139 STACKABLE EFFECTS
Choose from 139 effects, including drives, modulation, delays, reverbs, and more.

USB AUDIO INTERFACE
Plug into your computer, phone, or tablet to record, livestream, or play along with your favorite tracks.

LOOPER
Record stereo loops up to 45 seconds long, then overdub, undo, and redo directly from the footswitches.

TUNER
Stay in tune with standard, open, and DADGAD tunings, plus support for 7-string and down-tuned guitars.

BUILT-IN WI-FI
Keep your pedal up to date with firmware updates over Wi-Fi, no computer required.

TECHNICAL SPECIFICATIONS

Number of effects used simultaneously		14 EFFECTS
Rig user area		200
Sampling frequency		48 kHz
A/D conversion		24-bit, 64x oversampling
D/A conversion		24-bit, 64x oversampling
Signal processing		32-bit float
Frequency response		20 Hz – 20 kHz (+0.5 dB/–0.5 dB) (when 10kΩ load)
Display		Touchscreen LCD (240×320 dot) × 2
Inputs	INPUT	Standard mono phone jack
		Maximum input level: +12.4 dBu
		Input impedance: 1 MΩ
	RETURN/SUB IN	Standard mono phone jack
		Maximum input level (INST): +12.4 dBu
		Maximum input level (LINE): +18.4 dBu
		Input impedance: 1 MΩ
Outputs	Outputs OUTPUT L/R	Standard mono phone jack
		Maximum output level (INST): +12.4 dBu
		Maximum output level (LINE): +18.4 dBu
		Output impedance: 330 Ω
	PHONES	Stereo mini jack (3.5mm)

		Maximum output power: 24 mW + 24 mW (32 Ω load)
		Output impedance: 56 Ω
	SEND/SUB OUT	Standard mono phone jack
		Maximum output level (INST): +12.4 dBu
		Maximum output level (LINE): +18.4 dBu
		Output impedance: 330 Ω
Input S/N		123 dB
Noise floor (residual noise)		–102.1 dBu
Control input		FS01/FP02M input
MIDI IN/OUT jacks		Stereo mini jack
USB	Port:	USB 2.0 Type-C / Supported cable type: Type-C
	USB MIDI:	USB1.1 Full Speed
	Audio interface:	USB 2.0 High Speed, 48 kHz, 32-bit float/ 24-bit,
		2in/2out
		• Use a USB cable that supports data transfer.
		• USB bus power is supported.
Bluetooth		Bluetooth 5.4 (BR/EDR/BLE) (Max: 7.5 dBm)
Wi-Fi		2.4 GHz: 2.400 – 2.4835 GHz (Max: 19 dBm)
		802.11b/g/n/ax
Power	Lithium-ion batteries:	Maximum voltage: DC 4.2 V
		Nominal voltage: DC 3.7 V
		Capacity: 2900 mAh
	Commercially available USB AC adapters:	10 W (5 V, 2 A) or higher
	Charging time:	about 3 hours
	Battery operation time:	about 4.5 hours
		• These values are approximate.
		• Battery operation times were determined using in-house testing methods. They will vary greatly according to use conditions.
Dimensions		120.6 mm (D) × 236.4 mm (W) × 54.2 mm (H)
Weight		850 g
Note: 0 dBu = 0.775 V		

PRESS RELEASE

About the Zoom Corporation
WE'RE ZOOM. AND WE'RE FOR CREATORS.
Zoom designs and produces a wide array of recording devices, multi-effects processors, effects pedals, digital mixers, and samplers. Our innovative, cutting-edge technology is trusted world-wide by sound designers, musicians, podcasters, filmmakers, location sound professionals, electronic news gatherers, and pretty much anyone who creates amazing, important things.
Zoom's corporate culture is a fusion of engineers and artists; a combination of advanced technological skills and the sense and desire to employ them creatively and imaginatively. Our mission is to design, develop and manufacture high-end, and easy-to-use creative tools that allow anyone, from amateur to professional, to more freely express their creative ideas in today's digitally-driven world.

About the Company Sound Service European Music Distribution
Founded in 1983, the Berlin based Sound Service European Music Distribution has been growing steadily from a one-product-distributor (MFB Fricke; the world's first digital drummachine) to one of the major independent german distribution companies for musical instruments recording studio equipment and PA, Lightning and DJ products. Today Sound Service is one of the leading distribution companies in Europe with exclusive distribution rights for a lot of the A-List MI-brands covering most of the countries in Europe.
