

PRESS RELEASE

Zoom unveils the MS-70CDR+ MultiStomp

Zoom is delighted to announce the MS-70CDR+ MultiStomp. The MS-70CDR+ is the third next generation effects pedal of Zoom's highly acclaimed MultiStomp series. The MS-70CDR+ gives musicians 149 spatial effects ranging from lush choruses to crystal-clear delays to atmospheric reverbs.

With stereo input jacks that accepts signals from passive and active guitars, as well as line-level devices such as synthesizers and it's dual line-level output jacks, the MS-70CDR+ can be used in a variety of setups. And the USB-MIDI feature makes it even easier to integrate the MS-70CDR+ in a synthesizer or studio setting. The 4 encoder knobs are perfect for tweaking your sound to the max. You can design your own Custom Patches containing up to 6 different effects with the onboard controls or via our new Handy Guitar Lab App for iOS. And the new Color LCD screen changes the colour according to the effect type you have selected, that you never get lost on stage even in the darkest environment. This single stompbox can shape your tone and provide endless depth and textures. The MS-70CDR+ will be shipping in Q2 2024.

Berlin, 14th of March 2024 – Introducing the new MS-200D+ - Your New Modulation Station.

The MS-70CDR+ gives musicians 149 spatial effects ranging from lush choruses to crystal-clear delays to atmospheric reverbs. This single stompbox can shape your tone and provide endless depth and textures.

A DEEP DIVE INTO CHORUS, DELAYS, REVERBS & MORE

Chorus - 43 different chorus and modulation effects that add depth and motion to your sound including phasing, flanging, tremolo, vibrato, detuning, and pitch shifting.

Overview

Facts

- Zoom unveils the MS-70CDR+ MultiStomp
- 149 spatial effects including Reverbs, Delays, Chorus and other modulation effects
- 6 simultaneous effects
- New Cross Key switches for easy access and navigation
- Color LCD screen changes color with each effect category
- 100 user patch memory
- 4 encoder knobs
- USB MIDI
- Dual 1/4" input jack & dual 1/4" output jacks
- Accepts signals of passive and active pickups as well as line level signals
- Handy Guitar Lab App for iOS

Delays - Featuring 29 mono and stereo delays, with delay times of up to 4 seconds. Everything from reverse and multi-tap to pitch-shifted and self-oscillating delays.

Reverbs - 33 sophisticated studio-quality effects. From spring and plate reverbs to giant hall and arena reverbs.

Dynamics / Filters - Round out your sound with 44 dynamics and filters such as EQ's, compression, noise reduction, and special effects.

EXPANDED CONTROLS

The MS-70CDR+ offers expansive parameters for each effect, allowing you to dive deep into tweaking your tone.

DEFINE YOUR SOUND

Use a singular effect or up to 6 simultaneously to create unique tones. Save your creations in one of the 100 patch slots, or use the 80 preset patches as inspiration to get you started.

NEXT GENERATION CIRCUITRY

Newly designed analog circuits provide more fidelity for improved sound quality. The flat phase response provides sharp attacks and clean low end.

EVERYTHING'S BETTER IN STEREO.

The MS-70CDR+ has stereo input jacks that accept signals from passive and active guitars, as well as line-level devices such as synthesizers. Its dual line-level output jacks enable you to record and perform with the MS-70CDR+'s 58 stereo effects.

SOUNDSCAPES ARE KEY

For musicians looking to add lush layers to their synths or keyboards, the MS-70CDR+ provides high-quality effects that are perfect for adding atmosphere and character to your sound.

CHANGE PATCHES WITH MIDI

With USB MIDI, you can connect the MS-70CDR+ to other MIDI gear to remotely trigger patch changes.

ENHANCED NAVIGATION

Cross Key Switches

The Cross Key switches allow you to instantly switch between effects and patches with a tap of your foot.

Control Knobs

Adjusting and tweaking parameters for each effect can be done with the four encoder knobs.

Color Coded LCD Screen

The LCD backlight changes color to make it easier to distinguish each category of effects while scrolling.

STURDY BUILD

The MS-70CDR+ is built around a metal frame designed to withstand the rigors of live performances.

POWER OPTIONS

The MS-70CDR+ runs on 2 AA batteries, USB power or AC power.

TUNE-UP

The onboard chromatic tuner uses the color backlight to give visual feedback to help you tune quickly and accurately. It supports all standard guitar tunings as well as open & drop tunings.

HANDY GUITAR LAB

With a growing library of patches and effects, guitarists can continue to expand their sound with the Handy Guitar Lab for MS-70CDR+ app for iOS.

*Coming Soon to the App Store.

TECHNICAL SPECIFICATIONS

Maximum number of simultaneous effects		6 effects
User patch memories		100
Sampling frequency		44.1 kHz
A/D conversion		24-bit 128× oversampling
D/A conversion		24-bit 128× oversampling
Signal processing		32-bit
Frequency response		20 Hz – 20 kHz (+0.5 dB/–0.5 dB) (when 10kΩ load)
Display		160×128 dot-matrix LCD
Input	L/R	Standard mono phone jacks Rated input level: –20 dBu Input impedance (line): 470 kΩ
Outputs	L/R	Standard mono phone jacks Maximum output level: +7.2 dBu (when output impedance 10 kΩ or higher)
Input S/N		122 dB
Noise floor (residual noise)	L/R	–100 dBu
Power		AC adapter: 9V DC 500mA center negative (ZOOM AD-16) 2 AA batteries (alkaline, lithium or rechargeable NiMH Alkaline batteries: about 5 hours (using stereo input) NiMH batteries (1900 mAh): about 6.5 hours (about 5 hours using stereo input) Lithium batteries: about 14 hours (about 10 using stereo input) Port: USB 2.0 Type-C/Supported cable type: Type-C Handy Guitar Lab: USB1.1 Full Speed
Estimated operation times	• These values are approximate. • Battery operation times were determined using in-house testing methods. They will vary greatly according to use conditions.	
using batteries		
USB		• Use a USB cable that supports data transfer. USB bus power is supported.
Dimensions		133 mm (D) × 79 mm (W) × 61 mm (H)
Weight		368 g (excluding batteries) 415 g (including batteries)
Note: 0 dBu = 0.775 V		

About the Zoom Corporation

WE'RE ZOOM. AND WE'RE FOR CREATORS.

Zoom designs and produces a wide array of recording devices, multi-effects processors, effects pedals, digital mixers, and samplers. Our innovative, cutting-edge technology is trusted world-wide by sound designers, musicians, podcasters, filmmakers, location sound professionals, electronic news gatherers, and pretty much anyone who creates amazing, important things.

Zoom's corporate culture is a fusion of engineers and artists; a combination of advanced technological skills and the sense and desire to employ them creatively and imaginatively. Our mission is to design, develop and manufacture high-end, and easy-to-use creative tools that allow anyone, from amateur to professional, to more freely express their creative ideas in today's digitally-driven world.

About the Company Sound Service European Music Distribution

Founded in 1983, the Berlin based Sound Service European Music Distribution has been growing steadily from a one-product-distributor (MFB Fricke; the world's first digital drummachine) to one of the major independent german distribution companies for musical instruments recording studio equipment and PA, Lightning and DJ products. Today Sound Service is one of the leading distribution companies in Europe with exclusive distribution rights for a lot of the A-List MI-brands covering most of the countries in Europe.
