

PRESS RELEASE

Zoom GCE-3

Zoom unveiled the new GCE-3 Guitar Circuit Emulator today at NAMM 2019. The Zoom GCE-3 is a compact USB recording interface that puts the endless collection of all guitar effects, amps and cabinets of the highly acclaimed Zoom multi-effect processors for guitar and bass (G1, G3n, G5n, B1, B3n and more) at your fingertips whenever and wherever inspiration strikes. Use Zoom's world class effects, amp and cabinet simulations for your recordings by simply loading your favorite effects and more on there internal DSP of the GCE-3 by using our Zoom Guitar Lab Software. The Zoom Guitar Lab software will also be updated to version 4.0 with the introduction of this new product and will offer many new features that make it easier than ever to organize and customize artist patches, effects chains, amp simulations and much more.

Rangsdorf, 24th of January 2019 – We are pleased to introduce to you an all-new product by Zoom: The GCE-3. The GCE-3 Guitar Lab Circuit Emulator is a compact USB recording interface with full integration in Zoom's free Guitar Lab 4.0 software. Small enough to fit in the pocket of your gig bag or backpack, this compact USB-powered interface is perfect for capturing your ideas in the studio or on the go. The GCE-3's built-in DSP processing takes the load off your computer, letting you dial in and record professional-sounding guitar tones with reduced latency.

PRESS RELEASE

Zoom GCE-3

Audio Interface. Built-In DSP. Downloadable Effects.

The Zoom GCE-3 is a compact USB recording interface that puts Zoom Guitar Lab's endless collection of guitar effects, amps and cabinets at your fingertips whenever and wherever inspiration strikes.

Your Grab-and-Go Studio

Small enough to fit in the pocket of your gig bag or backpack, this compact USB-powered interface is perfect for capturing your ideas in the studio or on the go.

Always In Sync

The GCE-3's built-in DSP processing takes the load off your computer, letting you dial in and record professional-sounding guitar tones with reduced latency.

Plug In. Jam Out.

The GCE-3 records to your computer via standard guitar input and USB-C. Perfect for practicing, the AUX input lets you play external backing tracks directly to your headphones while only recording your guitar to your computer. And for monitoring, the GCE-3 offers dedicated headphone volume control.

Guitar Lab Software

With the ZOOM Guitar Lab app for Mac/Windows, you have access to Zoom's huge library of amp models, artist effects and patches available for renowned Zoom's G-series. The GCE-3 in fact can emulate on your Mac/PC the circuit of Zoom's popular multi effects processors such as G5n, G3Xn, and even B3n for bass sounds effects. It's a one-stop shop for effects collection and management!

Clipboard Function

For convenience, the Clipboard function memorizes up to four effects with custom parameters, so you can copy and paste them onto other patches.

Patches & Effects

The NEWS section keeps your sound fresh with a steady stream of new downloadable patches, and the EFFECTS tab houses an ever-growing list of classic and boutique effects.

Free Cubase Download

The GCE-3 comes with a free license for Steinberg's Cubase LE music production software, so you can record, mix and master your tracks.

Features at a Glance

- Instantly access dozens of high-quality effects, including distortion, overdrive, EQ, compression, delay, reverb, flanger, phaser and chorus
- Free download of ZOOM Guitar Lab Mac/Windows software for creating, editing and managing patches
- USB-C port for connection to computer
- Built-In DSP processing
- Input jack accepts standard guitar cable
- Auxiliary stereo input jack for connection of smartphones and music players
- Stereo headphone output with volume control

PRESS RELEASE

Zoom GCE-3

What's in the Box

Here's what comes included with the GCE-3:

- Steinberg Cubase LE license
- Non-slip pad
- USB cable (type A to C)
- Operation manual

Specifications

- Sampling frequency: 44.1 kHz
- A/D conversion: 24-bit 128x oversampling
- D/A conversion: 24-bit 128x oversampling
- Signal processing: 32-bit
- Inputs
 - INPUT
 - Standard mono phone jack
 - Rated input level: -20 dBu
 - Input impedance (line): 470 kΩ
 - AUX IN
 - Stereo mini jack
 - Rated input level: -10 dBu
 - Input impedance (line): 1 kΩ
- Output
 - PHONES
 - Stereo mini jack
 - Maximum output level:
 - Headphones 15 mW + 15 mW (typ. 32Ω load)
- Input S/N: 120 dB (typ)
- Noise floor (residual noise): -96 dBu (typ)
- USB
 - Connector: USB Type-C
 - USB 2.0
- Power
 - USB bus power (Type-C)/5V DC power supply (Micro-B)
- External dimensions
 - 80 mm (D) × 106 mm (W) × 29 mm (H)
- Weight
 - 90 g

About the Company Sound Service GmbH

Founded in 1983, the Berlin based Sound Service GmbH has been growing steadily from a one-product-distributor (MFB Fricke; the world's first digital drummachine) to one of the major independent german distribution companies for musical instruments recording studio equipment and PA, Lightning and DJ products. Today Sound Service is one of the leading distribution companies in Europe with exclusive distribution rights for a lot of the A-List MI-brands covering most of the countries in Europe.
